Documents selected revolve around a circular airgram sent to certain Argentine diplomatic missions instructing them to urge the implementation of Resolution VI of the Bretton Woods Conference, which aimed to stem the flight of Axis capital to neutral countries. The records cover the period 8/44 to 11/44 include the circular telegram ordering missions to pass notes to certain neutral countries. They also include discussions of the content of the note and alternations to its content in response to British concerns. Interestingly State decided not to approach Argentina at that time regarding implementation of the Resolution

Among the Daily Diary Entries of the Chief of Staff that comprise this box, two are of interest. They refer to Ordinance NO. 11, which was issued by the Russians ordering Germans to turn in all gold bullion and valuable metals. It is characterized as being practically the same as OMGUS Law 53. These entries are from July 28 & 31, 1945

of interest in the box are a series of interrogations of Walter Funk. They appear to be the source of the two reports in box 96. There is also a 7/27/45 memo relating to Robert Ingl gold cache. Finally, there are a withdrawal card that cover 18 interrogations. There is nothing to indicate the identity of the subjects, we will pursue this matter with the declass folks.

This box contains reports of interrogation of German government and military officials ranking as high as Hermann Goering. A number of these reports are of interest to us. There are 2 or 3 reports concerning Walter Funk, President of the Reichsbank. In one he states that he exerted personal influence in favor of McKittrick as president of the BIS; in the other he talked of German interests abroad & mentioned gold that the Italians captured & transferred to the Germans - some of which was BIS gold & some of which was brought to Germany. Another Report - Ribbentrop on

are also an 11/10/47 cable on Foreign

that indicates that the US was still

He indicated that Rumania insisted on payment
